General information

Descriptions

Mute Box™ is a made-to-measure freestanding microecosystem that integrates into any work environment. Designed for small meetings or to escape the hustle and bustle of the open space, the best place to think is inside the Mute Box.

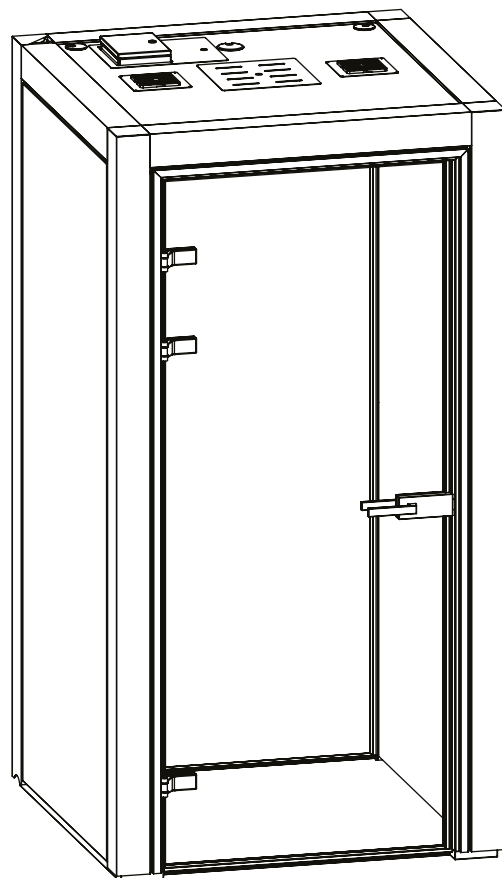

COLLAB

The group Mute Box for 2-4 people offers a wide range of interior configurations and furniture options to match its chosen role. With its optional screens and multimedia connections, it will quickly become the most sought-after collaborative space in the office.

SOLO

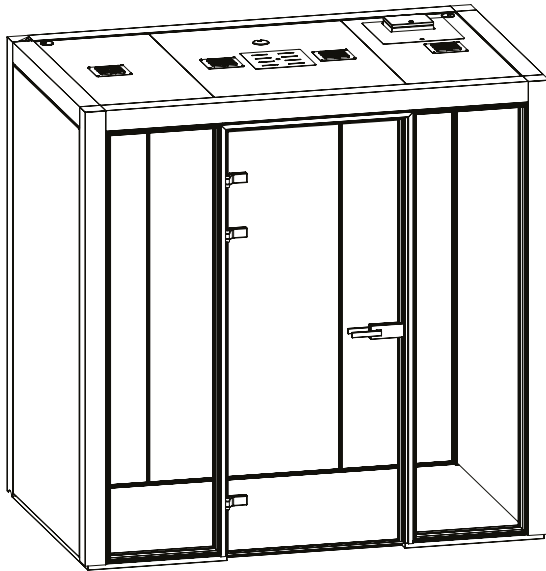

The individual Mute Box design is compact, making it easy to integrate into a variety of environments, including open office spaces.

Ventilation system

The Mute Box includes a high performance and stylishly-integrated ventilation system.

Solo (1-person booth)	Number of fans	2
	Maximum air flow	47 liters/second (100 CFM)
	Number of air changes per hour*	88/hour

* At maximum power.

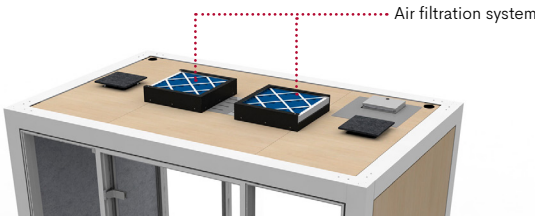

Collab (2 to 4 person booth)	Number of fans	4
	Maximum air flow	94 liters/second (200 CFM)
	Number of air changes per hour*	65/hour

* At maximum power.

Air Filtration System

- Is installed on top of the fans.
- Black painted steel case.
- MERV 8 filter.

Electrical system

- Power supply with 10 Amp. circuit breaker can be plugged into a standard 110 volt wall outlet. 14' power cord.
 - The ventilation and light system runs on 24 volt power with a variable intensity control.
 - Lights, 12" x 12" DEL panel, 20 watts, 4000K, 100 lm/W.
 - Power consumption during use:
 - Solo: 38W*
 - Collab: 54W*
- * Calculated with lights and fans at maximum power.

Acoustics

Mute Box booths were designed to offer a superior acoustic level to fulfill their mission of recreating a microecosystem independent from the rest of the space.

Optimal acoustics:

- 5 or 6mm double glass walls.
- High density soundproof felt.
- 10mm door seal.
- Soundproof wool integrated into the frame and laminate walls.

Furniture options - Mute Box Solo / Collab
